Part II.

SUBSTANCE OF INTERVIEW DESCRIBING THE GENERAL NATURE OF WHAT WAS DISCUSSED:

The examiner contacted Applicants' representative, Laurence Shumway, to discuss an amendment to the pending claims filed on 05/25/2010 to overcome rejection of the claims under 35 USC § 103, 35 USC § 102(b), 35 U.S.C. 112, second paragraph and USC § 112 first paragraph—New matter, to set forth the claims in condition for allowance. Additionally, the examiner requested filing of a terminal disclaimer over US Patent 7,595,192. Applicants' representative asserted that a TD over claims of US. Patent 7,595,192 was not necessary based on the initial restriction of the instant invention which was made final by the examiner in the office action filed on 01/27/2009. It was decided that a TD over US Patent 7,595,192 was not necessary as the product by process lysate of claim 1 of US Patent 7,595,192 was a distinct invention from the instant claimed cell lines. Further, Applicants approved an examiner's amendment to claims 1, 3 (c) and 11.

Part III.

☐ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview directly resulted in the allowance of the application. The examiner will provide a written summary of the substance of the interview in the Notice of Allowability.

☐ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview did not result in resolution of all issues. A brief summary by the examiner appears in Part II above.
